

Is there no end to corporate greed and the grasp for power that wrests citizens ability to participate in their democracy from their hands? The public air waves belong to us. How dare Sinclair Broadcasting air a documentary full of lies so close to the election. This should be a no-brainer for the FCC! Whose interests are served?? Certainly NOT the voting public. If the FCC fails to stop this, it will add to the mounting evidence that our government is for sale to the highest bidder. I believe that is the definition of Fascism. I am pleading with you to remember the democratic values we hold so dear. STOP Sinclair Broadcasting's attempt to throw ther election and DO NOT allow them to air this filth. Sincerely,
Kerry L. Sharpe DVM
